ABOUT ME

I am a passionate worker who likes to give everything my all and have pride in being punctual. My favourite pastime is modeling and character design which is what takes up most of my free time, so this is what I'm pursuing as a career. I work well with others to find solutions to problems or to critique. I have a full driving license or I can work from home in my office.

EDUCATION

University of the Creative Arts, Farnham — *Animation BA (Hons)*
